

Freedom-XT

The Freedom XT series of truck mounts offer very distinct advantages over the competition. First and foremost, the Freedom is the only truck mount in it's price class that comes equipped with a liquid cooled engine! The Freedom uses a more powerful, liquid cooled engine to ensure longer life and greater reliability. Additionally, the Freedom is the only unit to offer complete pressure washing at 2,000 PSI, making it versatile enough to clean carpet, upholstery and tile and grout! Freedom advantages:

- Front mounted drain and maintenance ports
- Pressure washing at 2000 PSI with Heat
- Stainless steel waste tank
- Blower grease cup

Victory-XT

Victory units are the most technologically advanced units in the industry today. Performance will be equal to or greater than any competitive unit in every category. Additionally, only the Victory units are equipped with the following features:

- Front mounted drain and maintenance ports
- Thermal exhaust system for cooling running engine and van interior
- Completely rebuildable exhaust diverter system
- Complete electronic diagnostics on front panel
- Pressure washing at 2000 PSI with Heat
- Stainless steel waste tank
- Greaseless blower technology

Genesis-nXT

The Genesis 56 has a number of advantages over the competition. The Genesis 56 produces 50% more vacuum, has a stainless steel waste tank, a significantly better warranty and adds the option of allowing you to perform complete pressure washing. In a side by side comparison the Genesis 56 will simply clean rings around the other unit.
